Welcome

Dear friends and colleagues,

It is with great pleasure that we welcome you all to the 13th social gathering and scientific conference of the **Egyptian Hepato-Pancreato-Biliary Society (EHPB)**.

Amongst the major challenges facing the HPB surgeon and internist nowadays is the rapid non-precedented revolution in technology together with the multi-disciplinary approach in the management of most HPB diseases.

In our conference we will try to introduce technological innovations and ensure the presence of experts in hepatology, oncology, basic sciences and interventional radiology and updated endoscopic and laparoscopic trends.

As you all well know our meeting always emphasises the social side, so all family members can mix work with pleasure.

In this event, we are happy to reactivate again the activities of Italo-Egyptian Association of Digestive Diseases that was founded in 1999, to enhance medical and surgical scientific cooperation between both counties in the field of **Hepato-Pancreato-Biliary Diseases**.

Looking forward to seeing you all in Hurghada, January 2010.

Lastly, we hope you all a pleasant and useful congress this year.
