Dear colleagues,

The field of endoscopy is recently going through a period of rapid innovation; Capsule endoscopy, high-resolution endoscopy, endoscopic in vivo microscopy, narrow-band imaging, en-bloc resection of early-stage carcinomas and the concept of transgastric operation.

We hereby like to invite you to the "4th Kasr Al Aini Hepatology & Endoscopy Symposium". The objectives of the symposium are to expand your knowledge of evidence-based approach to diagnostic and therapeutic advances in endoscopic techniques. A mixture of live-demonstrations, scientific discussions and presentations of new technologies by the most skilled endoscopy experts from Egypt and foreign countries will be performed. These presentations of established and novel methods, instruments and Skills from different schools will be transmitted from the endoscopy unit of the Al Abrashi unit at kasr Al Aini Hospital. State of the art lectures covering the latest hepatology and endoscopy advances will be presented.
